

# Manna House

## Health Education and Wellness

### Additional Services

#### Short Stays and Kick Start Programme

At Manna House we recognise that it is not always possible to join us for a full programme and that sometimes it helps to have a short stay experience before committing to a full programme. For these reasons we do consider a small number of short stays of 2 to 3 days throughout the year from suitable health guests.

#### Tailored Residential Programmes

Many people have expressed a desire for a programme specifically tailored for their health needs. These programmes tend to be longer than the standardised 7-10 day programmes. Manna House is able to accommodate such guests. As such longer stays usually follow a Health Consultation and Lifestyle Protocol which has identified the health tendencies and the deleterious habits that need changing. The Health Consultation will also appreciate that the health guest will require additional daily support to implement the recommended changes as well as provide supervised therapies and counselling. With a longer stay the health guest will receive vital sign checks and body chemistry, sometimes up to 4 times a day. They also receive therapeutic nutrition, hydrotherapy, counselling or coaching and education in relation to their health condition.

### PRICES

These programmes continue throughout the year. The price includes accommodation, daily health assessment and body chemistry analysis, daily treatment, and other natural therapies according to each guest's condition (excludes supplements).

<b>Refresh</b> (per day)	<b>Restore</b> (per day)
£99	£135

#### Additional Therapies

Allocation of treatment is dependant on your health needs. Our team are happy to organise additional therapies, so long as they are not contraindicative to any therapies you are already undertaking, at the following prices:

Therapy	Description	Price
Body Chemistry Assessment and Lifestyle Protocol	Vital signs and body chemistry analysis is undertaken, discussed with health guest and Lifestyle Protocol is written. This is tailored to health conditions and sets out an hour-by-hour and day-by-day programme to help improve health. Health assessment and discussion 60 - 120 minutes.	£175.00
Health & Lifestyle Protocol Review	Following a Lifestyle Protocol a health review is recommended to ensure that you continue your health journey.	£99.00
Colon Hydrotherapy	Warm filtered water is infused into the colon to clear waste and toxins. Excellent for conditions such as IBS, bloating and constipation. This treatment is relaxing and often relieving and kick starts a detox programme. Approx 60 minutes including assessment.	£65.00
Life Coaching & Stress Management	Having positive emotions and maintaining low stress levels is a very important part of the healing process. Ongoing support also enables people to maintain the good health practises started on the programme and to achieve other goals. This one and half hour coaching is taken over 3 half hour weekly telephone sessions. This effective coaching is delivered by a certified life coach and doctor. It is being offered as part of the Gold programme but can also be purchased separately.	£95.00
Colon and Abdominal Massage with Castor Oil wrap	Helps to release twists and torsions and bring blood flow to the abdominal organs clearing toxins and waste products. It addresses a long list of problems from IBS, infertility, menstrual complaints, depression, thrush, weight gain and others.	£45.00
Back, Neck and Shoulder Massage with Essential Oils	Stimulating back and shoulder massage tackling problem areas using essential oils.	£25.00
Feet Salt Soak and Massage	There is a choice, depending on condition, of magnesium sulphate, Dead Sea salt or Sodium Bicarbonate in which feet are soaked in hot and cold water, followed by a deep foot massage. Approx 40 minutes.	£25.00
Therapeutic Body Massage	Therapeutic massage is used to assist in the treatment of most musculo-skeletal problems, and regular massage therapy results in improved circulatory, lymphatic and neurological functioning. 60 minutes.	£45.00
Manual Lymph Drainage	Facilitates the removal of metabolic wastes, excess water, toxins, bacteria, protein molecules and foreign substances from tissue via the initial lymph vessels and the venous capillaries. It relaxes the sympathetic nervous system, reduces pain and enhances the activity of the immune system. Approx 40 minutes.	£45.00
Compresses	Helps to reduce inflammation and supplies heat or cold to a body part or the whole torso.	£15.00
Poultices	Poultices made from herbs, grains, charcoal, salts to aid healing and draw out infections. Price varies according to ingredients used in the poultice.	£5-£15
